Pengolahan Citra Digital

Tugas Ke-2

Nama : Ulinnuha Luthfi

NIM : 5301414063

Dosen : Alfa Faridh Suni S.T., M.T.

PROGRAM STUDI PENDIDIKAN TEKNIK ELEKTRO JURUSAN TEKNIK ELEKTRO FAKULTAS TEKNIK UNIVERSITAS NEGERI SEMARANG

2017

SOAL

- 1. Buat Low Pass Filter
- 2. Buat High Pass Filter
- 3. Buat Histogram equalization

JAWAB

1. Low Pass Filter

```
    LPF.py - PYTHON CODE - Visual Studio Code

File Edit Selection View Go Debug Help
                        LPF.py
                                        HPF.py
                                                         histogramequalization.py
        Welcome
               import numpy as np
               import cv2
               scr = cv2.imread('HIMPROTE.png')
               LPF = cv2.filter2D(scr,-1,np.ones((15,15),np.float32)/255)
               #pemrosesan Low Pass Filter dengan mengisi digit satu(np.ones)
 ¢.
              cv2.imshow('Gambar sumber',scr)
               cv2.imshow('hasil Low Pass Filter',LPF)
               cv2.waitKey()
               #menunggu input dari keyboard
               cv2.destroyAllWindows()
```

2. High Pass Filter

Gambar 1. Sketch High Pass Filter

Gambar 2. Gambar Asli (kiri) Gambar Hasil High Pass Filter (kanan)

3. Histogram Equalization

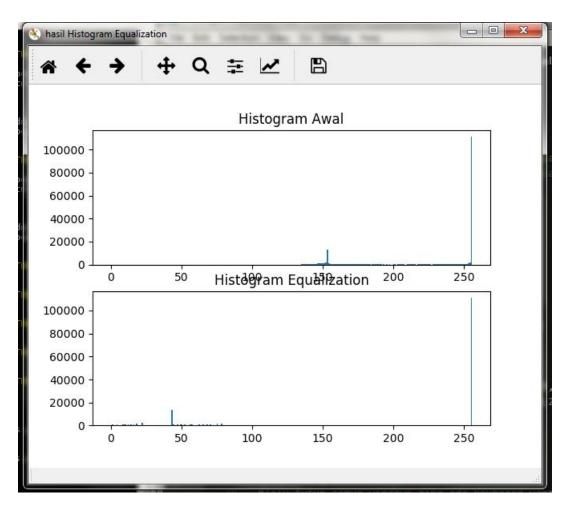

```
• histogramequalization.py - PYTHON CODE - Visual Studio Code
File Edit Selection View Go Debug Help
                       LPF.py
                                       HPF.py
                                                        histogramequalization.py •
               import numpy as np
               import cv2
               from matplotlib import pyplot as plt
               #untuk langsung plotting 2/ lebih histogram dalam satu window/ figure
               scr = cv2.imread('HIMPROTE.png')
 gray= cv2.cvtColor(scr, cv2.COLOR_BGR2GRAY)
               equ = cv2.equalizeHist(gray)
               #deklarasi fungsi histogram equalization
               cv2.imshow('Gambar sumber',scr)
               cv2.imshow('hasil Histogram Equalization',equ)
               plt.figure('hasil Histogram Equalization')
               plt.subplot(2,1,1),plt.hist(gray.ravel(),256,[0,256]),plt.title('Histogram Awal')
               #plotting histogram awal di urutan ke-1 dalam figure
               plt.subplot(2,1,2),plt.hist(equ.ravel(),256,[0,256]), plt.title('Histogram Equalization')
               plt.show()
               cv2.waitKey()
               cv2.destroyAllWindows()
```
